

In opposition to UC Support of Israeli Apartheid I demand that the University of California publicly state its policy regarding investment in the apartheid state of Israel and in companies doing business with apartheid. I demand that the UC publicly make a statement condemning the brutality of the Israeli occupation. I demand that the UC withdraw all of its investments in the apartheid state of Israel and in companies doing business with apartheid.

This postcard is in support of all of those struggling against the injustices of apartheid and state sponsored terrorism.
