

TX TEAM

TEXAS TEAM ONE 12 POINT PROGRAM

MowolabiIS@protonmail.com

TxTeamOne/ 113Stockholm, #1A/ Brooklyn, NY 11221

Tx TEAMONE seeks to bridge the gap between incarcerated parents and their children. We want to bridge the gap between the incarcerated class and Our counter-parts on the outside. Our strategy is to promote and practice literacy and social-political engagement among the captive populace, thereby creating people who children and communities can be proud to love and support and accept back into the communities.

MM(Prisons)/ pobox 40799/ SanFrancisco, CA 94140

S.Chicago ABC/ pobox 721/Homewood, IL 60430

With these thoughts in mind, Texas TeamOne wants the following

2) We want ALL STG confirmed prisoners to be allowed the opportunity to return to general population if and when they have maintained a satisfactory disciplinary history.

4) We want those who are in RHU to be allowed the opportunity to stimulate their intellect through literacy programs, education programs, life skills, job training, parenting classes, drug & alcohol treatment, arts/crafts programs, support groups, and the building of unions and political formations, all in accordance with TX STATE LAW(1x.gov.Codes\$ 501.009-volunteer organizations). Captives should be free to

exercise these rights without state interference or obstruction.

- 5) We want ALL discrimination against prisoners to CEASE; this is in accordance with TX.State law(Tx.Gov.Code§ 501.001).
- 6) We want an independent agency established that will fully investigate grievances and citizen complaints against the governmental institution of TDCJ and its agents.
- 7) We want an end to unpaid labor within TDCJ.
- 8) We want parole requirements capped at 35%.
- 9) We want captives to be afforded meaningful good time.
- 10) We want an end to death by incarceration(death penalty, life without parole, virtual life sentences).
- 11) We want the life term capped off at twenty-five years.
- 12) We want to ultimately end the social and economic relations and political policies that create the conditions of mass-class control and national oppression(mass incarceration).

OUR PURPOSE:

Texas TeamOne was founded by prisoners in Texas for the specific benefit of prisoners in Texas. We see prison as an imperialist institution that perpetuates the arrested development of oppressed nations and people. Prison and the in-justice system have been structured to only benefit those who've, through centuries of exploitation and oppression, have amassed surplus capital. As such the prison institution acts as a quasi-border wall within the interior of the empire, its purpose to protect the interests of the bourgeois-capitalist class.

With that in mind, Tx TeamOne acts to advance the inherent contradiction between US, captives and the state. Since the state has strategically utilized the prisons to mass-warehouse and enslave whole communities, whole sectors of nations, it is Our purpose to flip their strategy against them, by manufacturing prison conditions that will be conducive to Our longterm interest;

OUR ORGANIZING STRATEGY:

Tx TeamOne seeks to bring the entire TDCJ captive class and outside activists, organizations, and supporters of prisoner resistance, together across barriers of nationality, gender, ideology, religion, and geographic lines-thereby organizing a cross denominational united front unlike anything ever seen in

which provides the same services as J-pay for **FREE**

Inform as many people as possible about this coming event,
twitt and re-twitt about the Juneteenth Freedom Initiative,
Follow us at twitter @txTEAMONE

You can send books and literature inside.

Use your platforms to promote this campaign,
write your local representatives, the governor, and the
TBCJ advocating for Our cause.

And remember, "Remember the days of bondage- and remembering-
don't stand still".- Langston Hughes

the Texas prison system.

At previous stages of struggle We have collectively utilized various strategies. We've been non-violent, and we've been violent. We've underwent multiple hungerstrikes. We've petitioned the courts, ombudsmen, elected officials, and prison administrators. We've filed grievances and in all other ways imaginable have patiently waited for the Texas state government to suddenly, and magically grow a moral consciousness suddenly regarding its prisoners.

Although mass hungerstrikes have garnered us minimal advances we see that these actions have not had the substantial impact on the structure and day-to-day operations of TDCJ's warehouses and plantations. Our actions must disrupt the pseudo-'peace' and normal activities of these razorwired colonies. Our experiences have shown us that violence has been counter-productive to our goals in the context of the prisons. Through the empire's 'War on Drugs', 'War on Crime', 'War on gangs', which are all wars on US, we've been branded with the mark of the unredeemable, criminalized monster, public enemy #1. From this vantage point, the enemy-state is able to spin acts of violence against us to benefit their own agenda (keeping the beds full).

In the same breath, they utilize contraband in the same way. This is evinced by the fact that although 90% of contraband is provided by staff, in March 2020 when the Texas Board of Criminal Justice instituted new fascist policies restricting mail, and who can send captives monetary support, they utilized the supposed excessive amounts of contraband as probable cause to restrict us of precious aspects of outside contact.

All that said, we realize that it is strategically best for our actions to be non-violent, yet still militant. Furthermore it is strategically best that leaders who find themselves confined on any TDCJ unit, to promote and practice a new revolutionary culture that can supplant the toxic narco-gangster culture.

We offer up the following multi-pronged strategy for the current stage of the Texas prison movement for the current stage of the Texas Prison Movement, and will adjust our strategies and tactics as conditions change:

1) Steve Biko said, "The greatest weapon in the hands of the oppressor is the minds of the oppressed." Along these lines it is OUR strategy to illuminate the inherent contradictions of the in-justice system and the imperialist society to Texas, captive population through propaganda, and direct action. Through this combination, We seek to raise the national/ class consciousness of Texas inmates. Exposing the true motive(s) behind prison and crime.

2) Organize co-ordinated statewide prison shut downs/work or hungerstrikes. Work stoppages should primarily(not exclusively) take place at prisons with essential economic industries(Walls, Micheals, Wynne, All field Squads, all factories etc.). In this way We target one economic aspect of the prison institution and make conditions/ attitudes of state officials more conducive to going along with the real changes We wish to make.

3) Not everyone has a productive job in prison. So along with #2, We feel simultaneously co-ordinated hungerstrikes and/ or sit-ins on a MASS statewide level, will act to properly dramatize Our demands. The drama, or publicity surrounding these actions is what will shift the balance in Our favor through publicity(people's power).

4) Drawing from the example set by the Free Alabama Movement, We want to implement a nationwide leaflet campaign, protests and boycotts of major corporations that benefit from the mass warehousing and enslavement of Our families and communities (McDonalds, Walmart,Wendy's, WellsFargo Banks, AT&T, Secures, J-Pay and more). When the profit margin of these corporations is effected by OUR movement they will compel prison and state officials to comply with Our demands.

5) We are ONE TEAM, ONE UNITED FRONT against an imperialist conlomerate of opportunist and exploiters. As such We must pool all Our resources together. We should mobilize all families, friends, activists, and supporters, to engage in protest and dramatize at select prison grounds. These should be coordinated with the strikes, in order to bring all movement supporters on both sides of the walls together, to confront Our captors at the sight of Our oppression, the prisons themselves.

6) In summarizing Our broad strategy, We say that We will be most effective by applying a multi-pronged attack, consisting of both direct and in-direct actions. Both political and 'legal'. As it stands, TDCJ is not accustomed to dealing with widespread co-ordinated resistance with UNITY amongst captives

4.

- Governmental indifference in regards to environmental oppression on TDCJ unit grounds and surrounding communities.
- Death Penalty.

Solidarity Actions:

As discuss previously, those who're incarcerated should write to us providing your testimony/ documentary evidence proving that you've undergone one or some of the issues listed. We will include your document with others in a large evidence file to serve to the federal Department of Justice and the United Nations.

On Juneteenth, We're requesting inmates around the state to take part in the following type of protests, if you dont know details about one that is listed, write us.

- Sit-ins
 - Hungerstrikes
 - Workstrike
 - Boycott TDCJ industries/ private corp.
- Those who choose to hungerstrike must begin on the 16th, as it takes nine missed meals for a hungerstrike to be official, and be reported, and listed on medical documentation.
- Those who wish to participate in ANY capacity should write is at the address listed for Tx TeamOne, and We will send you a copy of the petition(s) to be served to administrators.

Those who're outside supporters, We want you to rally outside the state capital in Austin.

- Boycott corporations, and expose corporations that invest and profit on TDCJ inmates, and have stake in stock in TCI, and American Corrections Association (McDonalds, Wells Fargo,, Wendy's, Secures, J-pay)

If you use J-pat to write/ send money inside, you should look to angelia.egg@abolitionist.org, an abolitionist created service

25.

was put in place to quell the progress of prison conditions as they were being sought through pro se litigation.

- Laws, judicial practices and legislative measures which perpetuate mass incarceration, and 'Death By Incarceration' (DBI) :

- Anti-Terrorism and Effective Death Penalty Act; Another Clinton Era legislation which places unreasonable burden on imprisoned litigants who're seeking redress on possibly faulty convictions. This Act allows prisoners a one year time frame to appeal a conviction. This is unreasonable in light of the fact that most prisoners are ignorant in regards to the law, and a large amount are functionally illiterate, thus one years time for one to learn to read and write adequately, and also learn to navigate the legal system, the latter of which takes law students the better part of a decade to understand, in one year is over burdensome. The subsequent effect being that thousands of prisoners are languishing behind bars under faulty convictions, and communities and families left in a state of neglect.

- Law of parties
- Life Without Parole Sentences
- Unilateral Sentence enhancement laws that often do not align with a particular case.
- A lack of goodtime/ work time compensation for all prisoners
- A lack of objective criteria to be met by those who're parole eligible/ the farce of the 'individualized Treatment Plan',
- A lack of mandatory parole; prisoners shall be mandated to serve a set amount of time on their sentence, and this along with the ability or lack thereof to completely meet the objective criteria mentioned above, shall dictate ones release from or stay in prison.
- A lack of criteria for, and practice of compassionate releases or commutation of sentences.

and 'FREE' people. The entire state injustice apparatus has been thus able to act with impunity, as for decades we as oppressed people have been sleep-walking, playing along with the agenda of our captors.

" Jails and Prisons are designed to break human beings, to convert the population into specimens in a zoo-obedient to our keepers, but dangerous to each other." - Angela Y. Davis

**** QUICK NOTE ON LETTERS/PETITIONS ETC:**

In some instances phone zaps, petitions and letter/email campaigns have been effective. But this effect has been minimal and surrounding minimal demands. With that in mind, we assert that these methods shouldn't be ruled out, but significantly shifted.

These methods must be used to galvanize, our movement supporters. Write/call friendly-alternative media outlets (corporate media is not reliable), activists, organizations. This method is to spread the word of coming actions so that would-be participants can join in.

Furthermore, letters/petitions/phone zaps, should be targeted towards corporations to inform them of our boycotting their establishment due to their support of and profit from institutionalized torture (solitary confinement) and unpaid labor in Texas' prisons.

Summing up our own experiences in regards to writing elected officials, prisonrats and other poly-tricksters, they have yielded no meaningful results. Therefore, we the formation of Texas TeamOne struggle full speed ahead with a new strategy and new enthusiasm. UNITY From the Inside Out! #PrisonLivesMatter.

WHY SHOULD YOU JOIN/SUPPORT TX TEAMONE:

Despite many reports to the contrary Texas still remains the epicenter of mass incarceration.

A quarter million people are locked up in Texas' jails and prisons at present. That number is more than the total number of prisoners in France, Japan, the U.K. and Germany combined. From 1980 to 2020 the rate of incarceration for Texas' wimmin has reached nearly an 1,000% increase. Yes, you read that right 1,000% increase.

This state ranks third from last of all U.S. states in funding per capita on indigent criminal defense, with almost no oversight on indigent defense.

Often some white inmates shy away from activism in prison deeming that it isn't their problem. For white prisoners in Texas this excuse isn't substantiated. Texas' incarceration rate of 'non-hispanic' whites is higher than that of not only any state, but any country on Earth.

In 2019, due to an intensification in the War on Drugs, there was an all-time high number of felony convictions and prison admissions due to low-level drug possession.

In 2005, Texas introduced its life without parole (LWOP) statute. An individual in TDCJ can be serving LWOP without having killed anyone, as the state has expanded the amount of crime that can receive this unjust sentence. More than 1,200 people are serving LWOP and 1 out of every 10 inmates serving either life or virtual life. On top of that Texas' death row is still the most homicidal in the empire.

Texas is one of only three states that prosecute all 17-year-olds as adults. We wanna work to advance public opinion on a 'Raise The Age Bill' that will be retroactive, as a way to de-carcerate Texas' prisons.

Texas has a SERIOUS mental health crisis occurring in its prisons. We believe this stems from lack of competent personnel among other factors such as official indifference. 2019 was an all-time high for suicides in TDCJ.

Texas holds over 6 thousand people in solitary confinement, which is nearly five times the average compared to other states. Nearly 70% of all prisoners in the U.S. who've been isolated for six or more years are housed in Texas-TDCJ. Half of those held for three to six years are held in TDCJ. We encourage a combination of legislative and direct action to change these conditions.

We highlight all the above to illustrate the wide variety of people affected by the conditions within TDCJ. This is evermore the reason we encourage principle UNITY among captives.

- Arbitrary review committees at various levels:

Parole board, State Classification Committee, Restrictive Housing Committee, Disciplinary Hearings, Directive Review Committee, Texas Board of Criminal Justice; We call for transparency and the establishment of concrete criteria for inmates to be judged by; also an outside community oversight committee made up of concerned citizens and family members that can be sure effective measures are taking place.

- Allow an outside, independent investigative agency to take the responsibility of overseeing and investigating inmate, and citizen complaints on TDCJ, supplanting an ineffectiveness and corrupt grievance and ombudsman system.

- Systemic failure to abide by CDC guidelines regarding COVID-19 safety measures.

- Accountability and transparency regarding physical abuses in TDCJ prisons.

Judicial/ Legislative

Issues: The following issues deal with judicial and legislative policies or lack thereof which perpetuate the targeted mass-incarceration & subsequent arrested development of oppressed nationalities and peoples:

- The Law of Parties; in other states known as the 'felony murder rule' has begun to be repealed in other states of the country.

- The rubber stamping of grand jury indictments in urbanized counties; Harris, Dalls, Bexar, to name a few.

- Measure utilized to insure the lack of ethnic diversity in jury-pools/ selections; i.e. the practice of targeting specific gentrified ethnically pale, politically conservative zip codes; Harris, Dalls, Travis, and Bexar counties.

- Laws, and legislative measures which perpetuate inhumane treatment of inmates, and Our ineptitude in fighting these treatments:

• Prison Litigation Reform Act; A Clinton era federal legislation which places unreasonable limitations, and burdens on imprisoned civil litigants. This measure

We believe the **foundational** issue which perpetuates mass-incarceration is the powerlessness of those in the lumpen sub-class. This powerlessness is too often a lifelong experience. Therefore the fundamental issue at hand is to cultivate new values, and new people through creative programs that instill self-esteem, love and respect for people, respect for ideas, dedication, dependability, discipline, self-reliance, accountability, and the care and development of ones body and mind.

WE CAN BEGIN MENDING THESE INADEQUACIES BY ALTERING OUR RELATIONS WITHIN THE BROAD TEXAS PRISON MOVEMENT LANDSCAPE; I.E. ENCOURAGE AND SUPPORT PRISONER-LED SOLUTIONS TO MASS INCARCERATION AND PRISON INHUMANITY.

- **PRISON ISSUES:** The following issues deal with prison policies and operations which we're fixated on in this J.F.I.
 - the abolition of longterm and indefinite solitary confinement as practiced by TDCJ's RHU.
 - illegal monopoly business practices which target the economic security of prisoner families and communities, which perpetuate economic under-development in these communities.
 - Excessive censorship, and illegal mail tampering, and the socio-political nature of this repression.
 - The institutional move toward digitalization under the false premise of drug influx coming through mail. We assert that the majority of drugs and contraband are bought in by prison officials and these operations are often sanctioned by the highest of officials on the unit level to help pacify the inmate populace, and perpetuate behaviors that keep mass-incarceration from being threatened.
 - The failure of TDCJ to operate in a manner that will uphold their mission statement: to promote, and act in the interest of public safety. TDCJ doesn't allow vast amounts of the captured population to take part in any sort of productive programming, and are in direct violation of Tx.Gov.Code§ 501.009-volunteer organizations--.
 - Compensation for inmate labor.

state-wide collective struggle that will bring forth even greater UNITY. We are one of only three states that do not get paid(AT ALL) for Our work. We CAN change that!

HOW YOU CAN GET INVOLVED:

- 1) Prisoners should educate as many people as you can about Texas TEAMONE. Each one teach one. Conduct P.E.(political education) in your pod, dorm or on the yard, about the issues raised in this pamphlet.
- 2) Use this pamphlet as an agitational and organizing tool with others at your unit and even your contacts in the world. If you can obtain multiple copies of this pamphlet, please do so, thereby making a needed contribution to inmate organizing. We must build public and inside opinion on not merely this formation but the necessity of direct action and a liberatory culture shift on prison colonies. That way when dates are chosen for co-ordinated statewide action we will be a TEAM.
- 3) We need to hear from You! We encourage leaders, organizers and forward thinking captives on each unit in Texas to contact us directly, whereby one can begin the process of becoming Tx T.E.A.M.O.N.E. member and committee organizer:

SEE; CONTACTS PAGE

- 4) We need as many outside volunteers and supporters of Our cause as we do on the inside. If you are on the outside and believe you can assist Tx TEAMONE, We need research coordinators web/ graphic designers, legal representatives, multi-media platforms, and like minded activists. Please contact us via Our twitter page.

CONCLUSION:

LET ALL YOUR HOMEBOYS/ GIRLS•CO-WORKERS•CELLIES•AND EVERYONE IN BETWEEN KNOW - THE TIME IS NOW! SEIZE IT!

*** DECLARATION OF TX AD-SEG "UNITY" ***

To ALL inmates that have been trapped within these Texas 'AD-SEG' cages, brothers and sisters.

Each of you have known, We have fell victim to these oppressors for way too long! Since X mas 2017 Allred (seg) has been making the effort to take a stance against those that have continued to abuse their power. We do not have to go indepth with these oppressors doings. You know exactly what We're talking about.

Sadly, through two decades and some change, i've bore witness to this seg madness. From the worst of the worst plantation segs to the so called new wave high security units! It is time brothers and sisters, you finally realize your VOICE IS POWER.

Whether you feel you stand alone or not, EFFORT is key in this mission and movement. We, allred seg, have UNIFIED and created 'TX TEAMONE' as ONE TEAM to start being heard. TDCJ has abused us for way too long. We have lost brothers and sisters to these death cages, form suicides to excessive use of force incidents, it's time my people!

It's time TEXAS' WAKES UP! We know after so much abuse , many have been discouraged and may have lost HOPE for CHANGE. But Look around you brothers and sisters HOPE IS ALIVE, hope is what YOU make it.

Tx TeamOne is out to set an EXAMPLE: That We can UNIFY, We can out Our colors and differences to the side as Cali has for years.

George Floyd BROUGHT us life, brought us a REALITY CHECK, as well as many in the streets. The list of victims is neverending The free has stepped up to the plate and fought the fight. Why can't We in these cages? TDCJ has abused its power for way too long and they've seen how many souls have been broken!

That is where they've went wrong. Spiritually We been BREATHING and silently creeping! 2021 - its the year to set this madnress off. Peaceful strikes of ALL levels is needed. Violence is only feeding into their choke hold! We gotta think outside the box as you should already know!

General population: We aint forgot y'all, but have y'all forgotten us, brothers and sisters? Do you not see what We see? We, white uniforms, are needed to keep these plantations alive. So why not close them down?

to us at Tx TeamOne's address listed on the contacts page of this pamphlet. What We will do is use a substaintul amount of documentary evidence from a large amount of inmates from a variety of units, all testifying to the same things. In this manner We will showcase a systemic issue, not isolated ones.

We will not only demand the feds to investigate TDCJ and hold it in contempt, but more importantly We will seek federal permission to produce and persue inmate led solutions.

Some of Our proposals will be a Youth Engagement Program, in which prisoners will have the responsibility to mentor at risk youth who're in foster care, the juvenile justice system, or alternative school. We will propose that a prisoner-led seminar be conducted, in which the material We will utilize is the revolutionary 12step program created by MM(prisons). We have other proposals that have not been finalized, and We want dialogue, feedback, and ideas on new and better proposals.

The key to these proposals is the empower the captive class. Re-institute the principle of social responsibility.

After the petition is filed with the DOJ, from observing the outcome of other similar campaigns We expect an extended wait in response, if one is given at all. However, We will be expecting that, and Will move on ahead by bringing a second petition to the U.N..

We will use the feds inaction/ indifference to re-inforce Our point, We are Chican@ and New Afrikan peoples, mere paprer-citizens of the U.S. and Our attempt at redress has been ignored by this government on all levels, state, federal, and now We take it international, articulating the role the mass-incarceration, and longterm/ indefinite solitary confinement play in the genocide of Our nations. We will showcase the existence , and treatment of political prisoners in TDCJ, including those who've been politicized behind the walls. We will demand that Our situation be treated as any foreign national, We will demand that the U.S., and Tx be held accountable for not only breaking their own laws but those of the internation community of nations.

This is the longterm objectives of the action which will begin Juneteenth 2022.

More On The Juneteenth Freedom Initiative

What is J.F.E.I.?

The Juneteenth Freedom Initiative is a campaign to boycott and rally around Juneteenth, utilizing various issues which perpetuate continued prison slavery, and sub-human treatment, as well as the targeted mass-incarceration of oppressed nationalities (domestic & abroad) to mobilize a broad united front of activists on both sides of the walls

This campaign is being initiated from the inside, as we believe most actions surrounding the prison industrial slave complex should be. Texas T.E.A.M.O.N.E. has spearheaded this campaign and it has already been joined and supported by other organizations, and people behind the walls and the streets. (Tx Liberation Collective, R.A.M., MIM(Prisns) to name a few.

Targeted Issues:

As an organization we (with few exceptions) will only support inmate-centric, prisoner-led solutions to mass incarceration, prison slavery, and inhumane conditions behind bars. For this first Juneteenth 2022 action the purpose is to rally, and mobilize likeminded groups and people around this particular mission.

Many times movements lose traction due to not laying out a specific plan of action, instead planning for one rally, or one protest at a time with nothing tangible planned afterwards.

To fight this tendency we are gonna articulate here the trajectory of the Juneteenth Freedom Initiative, and what our vision is for it going ahead.

Tx. T.E.A.M.O.N.E.'s cadre is made up of Chican@ and New Afrikan revolutionaries. We plan to formulate two petitions surrounding the issues raised below. The first of these petitions will be sent to the Department of Justice Special Litigations Section. Accompanying this petition we wish to have imprisoned people write of incidents which have effected you while in IDCJ, or a Texas County jail, that are included in the list of issues. Send that testimony

You see the illusion of goodtime and parole is sooo MF obviously an illusion. COVID-19 truly showed it well. Tx.Gov. refused to release those with critical medical risk. NO MERCY for those that are past due for paying dues. We in ad-seg have had it hard and we hope you all in G.P. open your eyes and realize this could be your brother/ sister/ family member trapped in this cage.

So what can you do for her/ him? In short if you're reading these words in G.P. or any ad-seg cage, reach out to us at the address provided, and organize, stary your own TeamOne collective.

We refuse to bowdown any further. Tx TeamOne, We breathing, We here to stay and above all UNIFY as TEAM ONE(s).

T.E.A.M. UNO!
•OZO.

THE BASIS OF UNITY:

The FOUNDATION of ALL UNITY must be based upon an agreement by all parties, surrounding certain select ideas or principles. Particularly in the prison setting, where differences appear to be more pronounced, and most are segregated into factions, it becomes necessary to propose objective reasoning for UNITY and collective struggle.

With this in mind, We borrow from the United Front For Peace in prisons, using the following principles as the basis of Our principled UNITY in Texas' prisons statewide, on all custody levels.

PEACE: Without principled peace there can be no UNITY and without unity we will never achieve anything productive, let alone Our strategic goal of making the prison environment conducive to building captives developmental and commit to struggle. We must CEASE to allow Ourselves to be used as pawns by/ for the state/ badge, by perpetuating the divide and conquer strategy that only benefits Our keepers. We will band together, and against Our oppressors NOT eachother.

UNITY: Unity is gained and strengthened through networking and true communication. As we promote peace and unification and advance against the state, they will undoubtedly strive to break our peace and unity. They'll utilize dis-engaged captives to disrupt our forces from within. They'll start, spread rumors and in all ways promote or foster conditions of ignorance and strife. It is the state's desire to return Texas prisons to what they were only a few decades ago, killing fields, and gladiator schools. So they can control us all. Our sustained unity means the beginning of the end for their control. For what keeps us here, in prison, except our acceptance of their control?

GROWTH: We recognize the importance of education and freedom to grow in order to build real unity. Those individuals and organizations who promote this United Front for Peace in Prisons must practice the principle of growth by insuring that they promote the evolution of captive's mentality from one of the criminal mentality, to that of the revolutionary mentality. We should establish organized institutions behind the walls that will act as alternatives to the dominate prison culture. If we fail to live up to this principle, we recognize the rights of comrades to leave our organization in their furtherance of growth.

INTERNATIONALISM: We want the liberation of all oppressed people. We recognize that we will not free ourselves from our oppression, while being oppressors of others.

INDEPENDENCE: We promote and practice independence because we understand that the system of imperialism doesn't serve us. The prisons reinforce imperialist dictatorship and therefore it is necessary that we build our own programs and institutions, so that we are not guided or influenced by those who would have us compromise our goals.

Because of the different conditions on every prison, and even within different areas of the prison, each collective, cell, or local unit, or individual who seeks to organize in unity with Texas TeamOne must seek to develop these principles and maintain them with the captive populace at your local area.

The United Front for Peace is applicable to G.P. and SEG and should be established and maintained so that we will not get in our own way.

Other organizations have already signed on to collab, and support the Juneteenth Freedom Initiative. Leaders around the state are beginning to step up to the plate, and this is a first step into consolidating our forces as a class, statewide.

We, Texas T.E.A.M.O.N.E., send clenched fist salutations to the Texas Liberation Collective, and its founder, New Afrika political prisoner, and author, Ice Immortal Askari, for their active solidarity, vision, and contribution(s).

We're actively seeking out qualified captives on prisons designated for women to take up the responsibility of organizing a women's committee as a branch of Tx T.E.A.M.O.N.E. that will/ can be more effective in organizing around issues that are particular to the systemic oppression captive women and trans-men face within TDCJ.

We're doing the same for other sub-groups such as LGBTQ, lifers, and workers. With each of these sub-committees we plan to utilize them to empower the members therein. Other such sub-committees will arise in the future as comrades and their activities carry the movement forward, and our work must extend into other areas/ fields.

Interested parties who wish to establish one of these will be required to complete a study course via correspondence, and present a final essay that will be judged by committee members, and subsequently approved or denied.

This measure is to insure greater unity in action through ideological consolidation. We will still work with those who do not share our views, however those who're to take leading roles of responsibility within the Texas T.E.A.M.O.N.E. organization are mandated to obtain a certain level of political awareness.

For the most prominent goal of our movement is the cultivation of cadre- professional level revolutionaries- who will take up the struggle to new levels upon release. Who will continue to struggle after release from RHU. The only way to succeed in this goal is to have ideologically astute comrades within this movement in particular and within the Texas Prison Movement in general.

Boycott Juneteenth

In order to build for Juneteenth 2022, We are asking local USW cells, and other organizations in Texas (and beyond) to sign on to the pledge to boycott. Outside supporters of this campaign should follow/ visit us on twitter and show your support by twitting/ re-tweeting about this action.

@txTEAMONE

Prisoners, if your local group is planning to participate, please send us a letter to become a signatory. We will list you as, ' USW cell at xyz unit ' or whatever your local name you use for your group and the facility name. we also welcome solidarity statements or plans of action for next Juneteenth. Help us spread the word about this campaign to end solitary confinement and the mass incarceration of oppressed nations initiated by Tx T.E.A.M.O.N.E.

Write to either of the following addresses:

MM(Prisons)/ pobox 40799/ Sanfrancisco, Ca 94140

Tx TeamONE/ 113 Stockholm, #1A/ Brooklyn, Ny 11221

Furthermore, We're also seeking out artwork to be used as Our official logo, and is to be emboldened upon shirts, masks, and cups in the near future. Any interested parties should send submissions to either of the above.

The creator of the chosen work will receive a year free subscription to Under Lock & Key newspaper, as well as a free political book/ pamphlet to be chosen from the list below:

- Chican@ Power and the Struggle
For Aztlan, MM(Prisons) Study group
- Power to New Afrika, by Triumphant
- Revolutionary 12Step Program
- FPL
- Defend the Legacy of the BlackPantherParty

✱ Illuminating Contradictions of Captivity ✱

For the sake of clarity and strong organizational unity, it is necessary that comrades, and supporters have a clear picture of Our tactics and Our strategic goa; and the difference(s) between them.

It is prerequisite that We articulate and drill this in the heads of captive peers. Failure of the masses to buy into both Our tactics and strategic goal will result in the pacification of the captive populace after minimal changes have been made by the state at Our behest. We want to combat that tendency as much as possible, because it serves to strengthen the enemy-state.

It is Our duty to utilize propaganda and direct action to illuminate the contradictions (or problems) surrounding Our captivity. It doesn't serve us well to allow the state easy-outs and quick fixes. We wanna illuminate these things in order to awaken the masses of captives to their victimization and to the victimization of oppressed nations and people. We must show and prove to Our peers and the dis-engaged outside communities that all is not well, that We are being warred on and We can do something about it.

The demands listed in the 12 point program are guiding points to tactical operations and are not end goals, in and of themselves. Stated more plainly, the 12points are only points that will illuminate contradictions in the Texas Prison system that will further expose the prisons for what they really are, ' imperialist institutions that perpetuate the arrested development of oppressed nations and people.'

When We say in point #1, We want an end to racist practices and policies that allow prisoners to be held indefinitely in conditions of solitary confinement, it is to introduce a more profound phenomenon. Particularly, that Chican@/ Mexican@ captives make up over 50% of the captives held in solitary/ RHU, even though they only make up 32% of general population.

This large percentage is telling, when We account the fact that most of these captives have been designated STG(security Threat Group) A designator utilized by the U.S. Department of Homeland security after 9/11 to target/ label political and lumpen organizations as domestic terrorists. The STG designator has been utilized to criminalize Chican@/ Mexican@ identity, when people have committed no outlandish behavior

are made to soend their entire sentence, sometimes entire lives, in solitary confinement, because of policies put in place to target their nationality so that Chican@/ Mexican@ and all others who're subjected to similar treatment, will BREAK, losing the rebellious spirit necessary to resist occupations; As Texas is really occupied Chican@ national territory; AZTLAN.

The mass-warehousing of Chican@a in their own homeland, therefore acts to stunt national growth and development of Chican@ people and further kills the fighting spirit of the potentially main fighting force of the oppressed masses in occupied Turtle Island, that is the prisoner-captive class.

This is why We want an end to the ' racist' policies and practices and why We want STG confirmed prisoners released to G.P. because We observe these tactics instituted to stunt the growth of potentially revolutionary masses of people.

More importantly, We want the oppressed themselves, not only Chican@s but ALL oppressed people, to be made privy to the effects of such practices of the enemy and be moved to rise up and take their destiny into their own hands. This demand, like the others, are not us begging the state or administration for redress. Contrarily it is us begging, pleading with the masses of captives and people to flip the pig's strategies and tactics against them. Forcefully making them re-think their strategies.

When We point to the demand for a mandated limit to terms of isolation, it is to pin-point an even larger point. That being that all of the 6,500 plus people held in Texas' isolation chambers are held 'illegally'. We point to this not to reinforce state or international 'law', quite the contrary. We point this out to show and prove who the real kidnappers are, the real murderers, the true 'unredeemable, criminalized monsters, public enemy #1', which is the capitalist-imperialist society and the owners of this economy. It is to pin-point, the fact that daily, the state knowingly tortures thousands of people in Texas. Yet they live free privileged lives while We, the oppressed languish in tombs for the living.

In point #4, when pin-pointing the need to stimulate the intellect, this is to showcase a basic deficiency within the workings of the system. When someone fails to inform you, particularly ~~your enemy~~ ^{you} ~~with this information~~ ^{that you band together to inform}

Strategically, if We are to ever be able to utilize these prison colonies as cadre-development schools/ universities, it is of paramount importance that We remove this tool of repression out of the state's toolkit. For decades this environment now called Restrictive Housing Unit(RHU) has been used to strategically alienate the best of the best of Our lumpen class. **Those who will not capitulate to the destructive and oppressive tool of the state.**

Political prisoners, writ writers and socially influential captives find themselves in long-term isolation as a form of retaliation, and to maintain the ignorance perpetuated within the daily prison environment. It is past time now that We all, no matter Our affiliation or way of life, We must begin **NOW** to work together to the detriment of Our keepers.

If you like what you've read thus far, We ask you to join us in mobilizing the captives on your unit, We are looking forward to Juneteenth 2022. On that day We want a statewide general strike. Depending on ones custody level We will organize different plans of action.

If you're interested in this campaign and wish to take a stand, We need you! Female, Male, LGBTQ, Black, Chican@, Mexican@, White, Indigenous, Multi-ethnic! We need all of you!

As We scribe this message We are and have been on hungerstrike for two weeks in protest against those above mentioned injustices, along with others. Those of Us Souljabs on the Allred RHU have been battling this system and building Our level of experience and organization. We summed up the many lessons learned, and the main one is that We must **GET ORGANIZED** on a statewide level, pop city to the isolation tombs, as one strong and organized body We can effect change and build Ourselves and those of Our peer group into **NEW PEOPLE**. If you wish to organize under the banner of Tx TEAMONE We encourage you to connect with us directly: see the CONTACTS PAGE;

We Look Forward to Hearing From, and Working With, YOU

DARE	2	WIN

Texas T.E.A.M.O.N.E. Allred Committees

Campaign to Boycott Juneteenth Until Slavery and Mass
Incarceration is Ended for ALL(Juneteenth Freedom
Initiative)

Dear fellow prisoner,

This letter is being sent to you on behalf of Texas TEAM ONE, a prisoner-led organization committed to organizing us, captives of Texas as a class, and collectively struggling for human rights. While we do not believe that the fight behind enemy lines is our end all and be all, we do believe and hope that by inspiring the masses of TX captives to collectively organize, learn and demand their rights, along with establishing independent institutions for ourselves, that we can slowly but surely develop Texas Department of Criminal Justice(TDCJ) into a quasi-university, turning masses of so-called alienated delinquents into empowered activists for change, productivity, and revolution.

To begin this process of 'transforming the criminal mentality into a revolutionary mentality', we need YOU to join your fellow prisoners in mobilizing the masses for collective direct action.

As you may know, Juneteenth has now been made a federal holiday in America. On this day many will sing the praises of our oppressors or otherwise negate the reality of the lumpen (economically alienated class), that according to America's 13th amendment we are STILL SLAVES. While we do not wish to nullify the intensity of the exploitation and oppression that New Afrikan people held in chattel slavery faced, we must pinpoint to the general public, those upcoming generations of youngsters looking to follow our footsteps, that to be held in captivity by the state or feds is not only to be frowned upon but is part and parcel with the intentions of this American government, and its capitalist-imperialist rulers. We say NO CELEBRATING JUNETEENTH until the relation of people holding others in captivity is fully abolished!!

Furthermore, as you may also know there has been in recent years a national push to end all forms of extended isolation/solitary confinement. As usual Texas remains stubborn, still holding thousands of us in cages in an inhumane and illegal manner. We, TX TEAM ONE, seek to work with all our fellow captives to finally bring the torture that is longterm isolation to an end.

16.

While in RHU/ and G.P. for that matter, we want captive peers to prioritize liberatory intellectual development. Malcolm X once said that it is the worst thing one can do to allow their enemy to educate them or their children. Along these lines, we say organizations and individuals should develop systemic ways to develop the intellect of your/ our peers, and comrades. Teach each other philosophy, world history, revolutionary theory, economics, and when we start teaching these things, we will further illuminate the depth of deception inherent in the enemy-state's mis-education.

People will become dissatisfied, which will cause resistance and after that phase the pigs will 'beg' us to allow them to teach us.

In point #5, when we discuss discrimination against prisoners, we are being purposely general. Discrimination against prison captives has many variations. All of these variations are rooted in, or caused by, and stem from, the parasitic-capitalist economics that is capitalism, when in certain classes, peoples, and/or nations are systemically separated from the economy and super-structure (politics and culture etc) of the society.

In the U.S., in Texas, we TDCJ prisoners are this class of people.. It is for this reason we are the test dummies for many of the state's future social control plans. No one but prisoners could ever be denied the right to receive monetary support from anyone who so chooses. Only prisoners could ever be denied family photos, or holiday cards: Only prisoners could ever be held under tight censorship by thought police, dictating what they can/ can't read or write.

Only prisoners could be sprayed with 'illegal' teargas in tiny cells, beaten, groped, killed, all behind concrete walls and barbed wire fences.

Only prisoners could ever be blatantly denied their human rights and decency; left in small cages for decades on end; toiling without compensation; confined for life with no options of relief; or murdered 'legally' by the state.

Only prisoners could ever be subjected to the negligible medical and indifferent psych treatment that we are in TDCJ.

These are some (not all) of the discriminatory practices of TDCJ, and this is the sort of discrimination we want to CEASE.

13.

In point #6, We point to a fundamental problem in TDCJ and likely all prisons. That is, the utter lack of accountability for officials in instances of abuse or corruption. In 2019 there was a BILL introduced to establish an 'independent agency' to investigate grievances. We support this, however we assert that this 'agency' should operate more as a committee. One consisting of volunteer members of the community. Who have family imprisoned in TDCJ. We say it defeats the purpose to have the state's hand-picked observers, apart of this agency.

Point#7 is self-explanatory. We point to point#8-11, as we see them as institutional tools to perpetuate the dominance of the bourgeois class of the state. We say this because these policies further the handicapping and underdeveloping of entire communities.

We support the concept of 'Strategic Release', wherein a prisoner's grant of parole, pardon, or commutation/ clemency is based on the positive impact he/ she has had on their community and society during their imprisonment and the even greater impact they will have on society upon release.

We believe the concept and eventual implementation of strategic release will do the most to advance the prison colonies towards Our strategic goal. That goal being, to turn prisons from razor-wired colonies into liberation schools.

We say that strategic release will give prisoners, all prisoners, an incentive to evolve their behavior and thinking. This will enable prisoners to be released as assets to the struggle against capitalist-imperialist property relations. Which is and has been the root to Our social-political contradictions as a society and human race.

Along these lines, We point to point #12 as a summary of what Our struggles on the outside and inside are in furtherance of.

We feel this is important because We do not want more cosmetic changes and 'improvements' to this prison system. While We know these will be pushed upon us by the state when it favors them, We must not allow Ourselves to be bought off by things that We should have anyway. We don't just wanna watch movies and be hypnotized into complacency. We want to live and be allowed to develop fully as people.

In the Spirit of Attica, let us carry the struggle for the emancipation of humnity forward.

TEXAS TEAMONE
ALLRED COMMITTEE
(TRIUMPHANT)

14.

Defining;

T.E.A.M.O.N.E.

The spirit of the people is always the cause. In TEAMONE case the cause is definitely the abolition of solitary confinement/ administrative segregation/ restrictive housing and any other means used as a form of oppression to hold down us as a people seeking advancement.

Solitary confinement is the bridle used to control the people, and prolonged and long-term isolation is the reins mis-leading us into becoming conformists, and reformists instead of revolutionaries.

TEAMONE is here to remind us that a broken horse, no matter how aggressive or wild it is, continues to be broken as long as it accepts the bridle and responds to the reins. And i pray that the comparison to a broken animal riles you into thinking deeply about Our predicament because that is what you and i and everyone of us is seen as, a wild animal that NEEDS to be the strength of humyns are Our minds. To control us they have to control Our mind, if they can't control Our mind then they have to break Our mind.

Solitary confinement is just one proven way to deprive us into breaking Ourselves. Solitary confinement is isolation to deprive you of humyn necessities- touch and humyn connection

As humyns We all crave contact with eachother; physically, mentally, emotionally and spiritually, and any prolonged and/ or long-term deprivation of that contact erodes the same- physically, mentally, emotionally and spiritually prolonged isolation has broken more people than any other prison stat combined. When i speak of broken, i mean that We can no longer see past Our cells. We are becoming complacent with the delusion that the prison complex will do away with itself or outlive its usefulness or the Grand Delusion, the system will change without a struggle.

TEAMONE IS HERE TO DO AWAY WITH THAT DELUSION and bring to light the injustices done to us.

Together Ending All Mass Oppression and Exploitation
