

FREE MEMIK HOROZ

We, the undersigned, call on the Turkish government to release Memik Horoz, a journalist and the Deputy Vice Chair of the International League of Peoples' Struggle. Memik Horoz has been locked up since June of 2001 in the notoriously brutal Turkish prisons. We support the right to free political expression for those waging a just struggle for their national and social emancipation and demand Mr. Horoz' unconditional release.

The Amerikan government tacitly encourages Turkish fascism in return for geopolitical influence in the Middle East and Asia. It stepped up military aid to Turkey after martial law was declared in the early 80s, spending about \$500 million in military aid to Turkey each year from 1988 to 1993. The Turkish army uses Amerikan helicopters and other machinery in its genocidal war against the Kurdish people. Those of us living in Amerika's borders who oppose the brutal thuggery used to support the "New World Order" must speak up.
