

In opposition to prison censorship!

I demand that the practice of censoring mail be stopped and records of censorship be made public. Personal, political, religious and legal materials are censored by prison mail room and administrative staff on a regular basis. Denying prisoners access to needed mail, especially political materials, denies a prisoner his/her constitutional right to free speech. I demand that you allow prisoners to receive their mail, free of censorship.

This postcard is in support of prisoners at
prison in _____ experiencing censorship.
