

STOP THE WAR ON THE BLACK COMMUNITY!

Join MIM and RAIL at the rally called for by the International People's Democratic Uhuru Movement (InPDUM) to denounce domestic terrorism perpetrated by the Amerikan government against oppressed nations within u.s. borders on July 12 at 12:00 at the Uhuru House, 7911 MacArthur Blvd. Oakland. March begins at 12:30.

The war on the Black community is just one part an ongoing economic, cultural, and military campaign waged by Amerikan imperialism to ensure the continued hegemony of the Euro-Amerikan peoples over the rest of the world. This war is the cause of the tremendous influx of drugs into the Black community since the 1960s. It necessitates the occupying army (also known as the police) in the Black community harassing youth, beating up men and wimmin, and treating people like criminals just for leaving their homes. It is the reason many members of the Black Panther Party were murdered or imprisoned on false charges by the government. And it is the cause of an imprisonment rate of Black men higher than was seen even under Apartheid in Azania (South Africa).

Meanwhile the biggest criminals, those running the U.\$ government, are waging wars to illegally occupy lands, steal natural resources and exploit Third World peoples world wide. These international terrorists proclaim themselves the defenders of freedom around the globe while enacting the Patriot Act to restrict civil liberties at home, laws that target those resisting imperialist terrorism particularly anyone from a nation not thoroughly under the control of Amerikan imperialism including Blacks, Arabs, Asians and Latinos.

We must fight the war against these international terrorists at home and around the world. Many mis-leaders of the people in Amerika ignore the oppression of Blacks, Latinos, First Nations and others within U.\$ borders by calling for an anti-war movement to "Unite and Fight, Black and White." Slogans and strategies like this one do more harm than good as they encourage people to pretend national oppression does not exist just as the imperialists would like us to think. The real differences in material conditions between Third World peoples and Amerikans, and between the Black nation and the white nation within U.\$ borders, can not be eliminated with a few slogans about class struggle.

There is a reason the white nation in Amerika does not rise up in revolution: it is materially benefiting from the exploitation of Third World peoples. The wealth stolen by the Amerikan imperialists is supporting the high standard of living enjoyed by people within U.\$ borders. And this is a strong pacifying force for the white nation which can expect to get good jobs, find decent housing, attend schools with good textbooks, and drive past the police without being stopped.

To truly serve the struggle of the oppressed peoples of the world we must raise the battle cry against imperialism world wide. We must condemn international terrorism globally when the U.\$ overthrows a government to take control, or backs a military dictator with money and arms, or sends its military to help fight revolutionary people's movements, as strongly as we must condemn the domestic terrorist war against the oppressed nations which began with the theft of land from the indigenous people in 1492. And we will not stop until imperialism is overthrown.
