**Saturday, Sept, 30**  
**1pm in**  
**Harvard Sq. "pit"**  
(between *out of Town News*  
and *Au bon pain*)

**The event will feature:**

**anti-prisons activists, ex-prisoners, readings of prisoners' letters  
and poetry, groups distributing literature and more!!**

The U.\$ comprises only 5% of the world's population, but has 25% of the world's prisoners. A higher percentage of Black, Latino and First Nation members are locked-up than live within U.\$ borders. Oppose disproportionate incarceration, privatization of prison, and the status quo oppressive conditions of confinement that include brutality, lack of medical care, censorship, control units, excessive lock-downs, high phone and living costs, deterioration of visitors rights, transfers and much more. Support education for all prisoners, the end of censorship of both political and personal mail and belongings, access to law libraries, lawyers and legal resources, and freedom for all Revolutionary Leaders locked-up and/or further repressed for active resistance to imperialism and the injustice system.

**Build Resistance to the U.\$ injustice system!**
