

The migrant struggle, KKKolumbus day, and 200,000,000 ameriKKKan KKKonkistadores

Every day is kolumbus day in amerika

Of course kolumbus spearheaded “far and away, the most massive act of genocide in the history of the world.”¹ Of course amerikans know this. And of course amerikans *celebrate* this very genocide and plunder. History lessons won't help. Amerikans celebrate kolumbus because amerikkka *is* kkkolumbus. Every amerikan is one of the world's richest 20%, most are members of the world's richest 10%.² They got that way the kolumbus way – by murderous conquest of oppressed nations. That's a lot to celebrate. Within u\$ "borders," getting these clowns to stop celebrating what they are is doable, but only by force. And getting them to stop being what they are, konkistadores of the planet – getting amerikans to stop doing what they have to do to be what they are - that's doable too, just with much, much more force - outside force like Nazi Germany needed.

The migrant struggle: misleaders and the kolumbus-amerikan “left”

On Mayday, when migrants came out in cities across the u\$ in some of the most massive demonstrations in u\$ history, they showed the power of oppressed and exploited nations when organized against the enemy. These demonstrations were strikes against the amerikkkan-way, the kkkolumbus-way.

But among the 200,000,000 amerikan konkistadores there's a division of labor in celebrating kolumbus. Some reactionaries hold marches and rallies glorifying this true amerikan idol. The white nationalist so-called "left" celebrates kolumbus by seeking to sabotage all struggles of the oppressed nations against yanqui imperialism. The fakes of the amerikan white nationalist "left" carry a red flag in one hand and the kolumbus-amerika flag in the other. Working to extinguish the revolutionary flames of oppressed nation struggle, this "left" instead offers the migrant movement integration. Integration with the very konkistadores who have for centuries sucked the blood of these nations, who have made themselves the richest population on earth by their blood-sucking. Amerikans are not modern day kolumbuses but “exploited” “workers” says the white nationalist “left” to the migrant movement.

The white nationalist “left” and their lackeys in the migrant movement offer integration on the white man's terms: come join the oppressors and exploiters, give up revolutionary nationalism against the oppressors and exploiters. These reactionaries celebrate kolumbus by offering “equal rights” to the keys to the exploiters' kingdom in exchange for giving up revolutionary struggle – giving up the liberation of Aztlán, the liberation of First Nation lands, the liberation of the Black Nation. Giving up, that is, the destruction of amerikkka.

The destruction of amerika is what the world majority needs and will have Maoists understand that ending the brutal world domination of kolumbus-amerika is impossible if enemies are allowed to be pawned off as friends. The amerikan konkistadores are enemies to the world majority whom they oppress and exploit. Maoists understand that amerika's bloody empire will be destroyed from without by those oppressed nations through invasion and occupation. This destruction will be completed through:

- a Dictatorship of the Proletariat of the Oppressed Nations over the white nation
- deporting much of the white nation from the land it now occupies
- forcing relocation of the white population
- supporting national liberation and self-determination of oppressed nations
- returning Aztlán, most of the “southwest,” to Chicanos and Mexicans
- returning of much of the land occupied by the white-nation to First Nations
- self determination of the Black Nation, possibly in the Black Belt lands
- supporting national liberation, for Boricua (Puerto Rico) and other u\$ colonies
- massive reparations by the white nation to all nations it has oppressed

This will be goodbye kolumbus-amerika. It will be hello to the liberation of the world's truly oppressed and exploited. Long Live Victory Over Imperialism!

Amerikkans celebrate genocide.

Surprise. Surprise.
