Capt. Hatchett responded with a legal implications she claims to be advised by the supreme court, which she herself can't verify as of this day; she also claims to have been researching my publication for clarity before making a decision, which was false and an attempted cover up due to the illegal tampering of my mail; As of yesterday, August 19, 08, I've learned through my political organization mims that mailclerk P.L Rumei returned my personal mail and news-ether and fals claims of gang related materials; These are false allegations; when did news and political publications

become gang related materials? why couldn't capt. Hatchett and the Hampton Roads Regional Jail inform me of these allegations? why hasn't capt. Hatchett responded to my second complaint dated August. 8, 08. concerning the research of my news letter for clarity? Reason of delay is due to the violation of my first Amendment rights and the federal violation of mail tampering by correctional officials. This is discrimination on the behalf of my political belief's. I've been receiving Mim's News letters and publications here at this Jail, last date being June. 23, 08. I look foreward to receiving my mim's news letters without discrimination and violations of my first amendment right's!

very truly your's
