

Boycott Juneteenth!

The Juneteenth Freedom Initiative is a campaign initiated by Texas prisoners because true freedom was never attained via the promises of the U.S. government celebrated on Juneteenth.

This is demonstrated in some of the key demands of the campaign

- Demand an end to long term and indefinite solitary confinement
- End to excessive censorship and mail tampering
- Demand adequate safety measures for Covid-19
- Transparency with physical abuse in the prisons
- End to life without parole
